

Here at Teachers Plus Credit Union, helping our members become financially better-off is our main objective. We provide all of the great products and services that a bank can provide, but we do more. As a credit union, a fully member-owned organization, we are only as financially strong as all of our members and that is reflected in our values and how we treat each one of our members every day.

What is our Pick 1,2,3 offer?

We are offering you a fixed mortgage rate of 4.99% while allowing you to choose your term; 1, 2, or 3 years.

Why are we offering Pick 1,2,3 now?

After more than a year of steady increases to interest rates, there is every indication that over the next year or so fixed mortgage rates will start to go down. When will that happen? Well - you decide! You can pick a term of 1 year, 2 years or 3 years at this great rate. By offering you an excellent mortgage rate today, over a shorter term (1, 2, or 3 years), we are hoping that when your mortgage matures in the future, the rates are going to be even lower.

This offer is subject to financial approval and all conditions.

This offer is valid for new purchases, refinances, and renewals.

Offer is valid until July 31st, 2023. Offer may be discontinued at any time.

Competitive 4 & 5 year fixed term interest rates, available upon request.
